

BLT 250 PNEUMATIC LINE THROWER

The BLT 250 pneumatic line thrower is an advanced system which throws projectiles using the power of compressed air. Therefore it can be air-transferred as a simple cargo.

It has one main body (launcher) & four easily reloaded projectiles. It meets the demands of **SOLAS/IMO regulation 74/83** and is **approved by RINA.**

With regular maintenance the shelf life is unlimited!

Technical Data:

Throwing Unit: 8,3kg /165cm
Projectile: 2,1kg /100cm
Total Unit: 10,4kg /175cm
Bag Size: 105 x 22 x 20cm, 21kg
Shooting Chamber Pressure: 65 bar
Average Nozzle Velocity: 50,6m/s
Maximum Recoil: 5400N
Minimum Shots: 4 projectiles
Pressure: 200 bar
Volume: 2 liters

Key Features of Pneumatic Line Thrower BLT 250

- > No expiration date / Unlimited shelf-life with regular maintenance
- > Aerodynamic structure / Minimum effect of the wind
- > No dangerous good / Worldwide air-freight
- > Safety knob & pressure valve for user protection
- > No explosive materials (can be thrown from / into flammable areas).
Ideal for tankers too
- > All parts are reusable – it can be used again immediately after being refilled
- > Essential tool for water rescue
- > Product's cylinder complies with the latest EU Standards (5/8 of an inch),
easy refilling on-board just like BAs

Packaging

- 1 x BLT 250 Throwing Unit
- 4 x Projectiles
- 1 x Launcher
- 1 x User Manual
