MARINE AND INDUSTRIAL SUPPLIES

Dräger

OFFICIAL DISTRIBUTOR AND EXCLUSIVE AUTHORIZED SERVICE CENTER

Dräger is an **international leader in personal safety equipment supporting professionals** around the world **since 1889.**

POSEIDON Marine Supplies is an **official distributor** and **the exclusive, authorized service station** of all **Dräger** safety equipment in Greece & Cyprus.

Total Care Solution

is a complete, cost-effective, **3 or 5 year coverage** for your company's needs in **gas detection** devices and relevant **spare parts**.

This solution is addressed to all the work areas that under international and national laws are obliged, to comply with the relevant regulations for gas detection safety (chemical industry, Tankers, LPG, LNG, oil companies, etc).

It is fully adaptable to your fleet's individual needs and it features replacement of old equipment with brand **NEW Dräger** devices, **24/7 technical support** for all matters, **training for safe handling** and **fixed annual fee per vessel**.

G Dräger (New) Pac Series

These personal single-gas detectors are fast, reliable, precise and easy to use. The Dräger Pac series is available with a wide variety of sensors, the Pac 6000 & 6500 series can be equipped with sensors for CO, H₂S, SO₂ or O₂ and the Pac 8000 series is the right choice for special gases like ozone, phosgene or nitrogen dioxide.

G Dräger X-am 2500

The Dräger X-am 2500 was especially developed for use as personal protection. The 1 to 4 gas detector reliably detects combustible gases and vapours, as well as O₂, CO, NO₂, SO₂ and H₂S. Reliable and fully mature measuring technology, durable sensors and easy handling guarantee a high degree of safety with extremely low operating costs.

G Dräger X-am 5600

Innovation in the palm of your hand. Dräger X-am 5600 Unprecedented protection from the market's smallest, infrared-capable, **six-gas** personal monitor.

G Dräger X-am Pump

The Dräger X-am pump is an external pump for the portable gas detectors Dräger X-am 2500, 5000, and 5600 - designed for clearance measurement, for example in tanks up to 45cm and shafts. The pump automatically switches on when it is connected to a running X-am device. The change from pump mode to diffusion mode is fast and easy.

G Dräger X-am 8000

Clearance measurement was never this easy and convenient. The Dräger X-am 8000 measures up to seven toxic as well as flammable gases, vapors and oxygen all at once - either in pump or diffusion mode. Innovative design and handy assistant functions ensure complete safety throughout the process.

G Dräger X-zone 5500

State-of-the-art area monitoring. The Dräger X-zone 5500 in combination with the Dräger X-am 5000, 5100 or 5600 gas detection instruments can be automatically wirelessly connected with 25 more X-zone 5500 to establish a safety fence-line network of large areas.

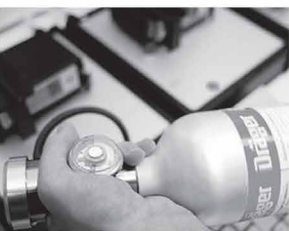

G Dräger Short-Term Detector Tubes

Tried and tested a million times. Worldwide, the Dräger short-term tubes have proven to be a very cost-effective and reliable method for the measurement of gases. Decreasing occupational exposure values, special customer requirements and new legal regulations made it necessary to develop even more sensitive Dräger-Tubes.

G Dräger-Tube pump Accuro

Fast measurement with one hand. The Dräger-Tube pump accuro allows you to use the established Dräger-Tubes to take measurements under extreme conditions. The easy-to-use Dräger-Tubes have already been calibrated and form a perfect unit with the Accuro pump. The Accuro pump can be used with extension hose up to 30m (98ft).

G Calibration gases & accessories

Strictly to rule. For the safe operation of devices, applicable regulations and statutory provisions are to be met and complied with. Therefore, regular calibrations and function tests are necessary. Available for that are different systems, which meet a wide range of calibration requirements.

G Fixed gas detection solutions

On an industrial facility, hazardous substances are part of the daily routine. However, with the right solutions & reliable equipment, the threat of explosive gas leaks or overexposure to toxic hazards can be drastically reduced. Dräger's complete portfolio of fixed gas detectors includes an extended range of toxic, flammable & oxygen monitors that interface seamlessly with a range of control systems & other components, even third-party devices.

A Dräger Alcotest 6820

The fast and compact Dräger Alcotest® 6820 alcohol detection device meets the stringent requirements of professional breath-alcohol analysis. With its tried-and-tested DrägerSensor, this robust alcohol tester guarantees very rapid response times and precise test results in all weather conditions and can also be adapted to international guidelines.

P Dräger X-pect Series

State-of-the-art protective spectacles and goggles. This is the new Dräger X-pect protective eyewear collection. Combining the best possible wearer's comfort, high safety and an attractive design, providing special protection for the most important sensory organ: your eyes.

P Dräger X-plore 1700

Breathe cool, stay safe. Dräger X-plore 1700 makes breathing easy and comfortable. The CoolSAFE™ filter material ideally combines low breathing resistance and high filter performance in one mask. And the CoolMAX™ valve efficiently releases humid and warm exhaled air to the outside. This makes breathing particularly easy and keeps you cool under the mask.

P Dräger X-plore 1900

A high-performance, single-use dust mask for protection against fine dust and particles. Thanks to clever design features and high-end materials, it combines exceptional comfort, optimal fit and ease of use. For the highest degree of safety - even for people wearing spectacles.

P Dräger X-plore 3300

Practical use and comfort. Dräger X-plore 3300 offers both and additionally excels by its economical and low maintenance use.

P Dräger X-plore 4700

The robust half mask which offers excellent comfort and outstanding leak tightness for demanding applications. Thanks to the wide range of filters available for protection against gases, vapours and particles, it is ideally suited for use in a variety of industries.

P Dräger X-plore 6300

Double and triple safety. The Dräger X-plore 6300 meets stringent requirements with regard to reliability, secure fit and comfort. An economical full-face mask for professional use in industry.

P Dräger PAS Lite

For use in industrial applications where a simple, robust and easy to use breathing apparatus is required, the Dräger PAS Lite Self-Contained Breathing Apparatus (SCBA) combines reliability with comfort & performance.

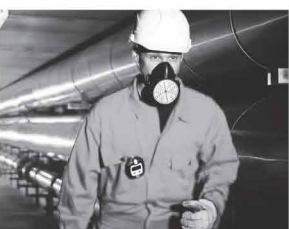

P Dräger PSS 3000

The Dräger PSS 3000 is a high performing breathing apparatus. Combining comfort with exceptional pneumatic performance, it is designed for applications where simplicity and ease of use are key essentials. Lightweight yet robust, this advanced breathing apparatus provides the ultimate breathing protection.

P Dräger Saver PP

The Saver PP constant flow Emergency Escape Breathing Apparatus (EEBD) allows safe, effective and easy escape from hazardous environments. Simple to put on and featuring automatic operation, this positive-pressure breathing device features an integrated full-face mask and can be used in conjunction with other safety equipment such as ear protectors or helmets.

P Dräger PARAT 3100

The Dräger PARAT 3100 is a half mask escape device equipped with a multi-gas ABEK15 filter. Packed in a robust and ergonomic case, the unit is compact and easy to carry. Approved to the only recognized standard for filtering industrial escape devices (DIN 58647-7), it provides user a minimum of 15 minutes escape time.

P Dräger PARAT 7500

The combined fire and industrial escape hood Dräger PARAT 7500 was developed by placing the focus on the fastest possible escape. Optimized operation and wearing comfort, a robust housing and a tested ABEK CO P3 filter ensure protection from toxic industrial and fire-related gases, vapors and particles for at least 15 minutes.

P Dräger Oxy K30

Dräger Oxy K30 is a series of 10-year maintenance-free, oxygen self-rescuers (EEBD) for 30 minutes available as hood or mouthpiece version. Thus, best carried when toxic gases can be present, or the atmosphere can be oxygen deficient. The hood provides protection for your head, face and eyes against smoke, heat and sparks. DIN EN 13794, DIN 58639, SOLAS & MED approved.

P Dräger SPC 4X00 Series

Light and comfortable to wear. Dräger SPC 4400, SPC 4800 & SPC 4900 liquid-tight splash suits offer reliable protection against the finest particles and powders, many concentrated inorganic acids and alkaline solutions. Also resistant to a wide variety of organic liquid chemicals. CE-certified and classified as type 3, 4, 5 and 6.

CSE Trailer for Confined Space Entry Training

When it comes to safety nobody can afford poorly trained employees

POSEIDON Marine Supplies brings to your own premises Dräger's official Confined Space Entry Trailer, specially designed to provide practical training in custom made scenarios according to your applications. Courses give your employees actual experience on using personal protective equipment and simulates situations that may occur in your workspace.

The training consists of 4 parts:

- **THEORY** Thorough seminar regarding CSE principles, legislation and procedures by our specialized trainers.
- **FAMILIARIZATION** Getting to know the necessary personal protective as well as escape and rescue equipment.
- **PROCEDURES** Understanding the importance of security procedures and their implementation before proceeding to real life scenarios.
- **SIMULATION** Real Confined Space Entry procedures of customized scenarios according to your applications and based on your needs.
