

Dräger X-pect® 8500 Goggles Protective Eyewear

The goggles Dräger X-pect® 8500 provide premium eye protection with a wrap-around design, low weight and perfect fit with prescription glasses. A closed sealing line between goggle and face provides full protection against dust and splashes. In addition, the goggles are very robust and can be easily combined with other protective equipment like Dräger half mask respirators.

Benefits

Wrap-around design

The wrap-around design of the X-pect® 8500 goggles provides a perfect fit and protection. The soft molded browguard provides extra protection.

Soft PVC body with indirect ventilation

The soft and flexible PVC body ensures proper fit. It includes indirect ventilation to reduce fog during intensive use.

The X-pect 8515 has a closed frame and thus, provides protection against airborne infection.

Anti-scratch and anti-fog coating

The X-pect 8500 goggles feature an anti-scratch and anti-fog coating to ensure clear vision in the most arduous of situations.

Easily adjustable

All goggles are easily adjustable with a buckle and wide strap to prevent any pressure on your head.

Very robust but lightweight material

The material of the X-pect 8510 goggles is very robust and stable due to polycarbonate material but is still lightweight providing high comfort even during intensive use.

The X-pect 8515 goggles are made acetate material which is highly resistant against chemicals.

Premium comfort

The X-pect 8500 series provides high wearer comfort due to its ergonomic design. In addition, all models of Dräger's protective eyewear collection provide perfect fit together with Dräger X-plore® half mask respirators.

UV protection and best optical class

All X-pect 8500 models offer the highest UV protection available and the best optical class (class 1) for continuous work. Additionally, it is certified in accordance with EN 166:2001 and is CE compliant. This means that all spectacles meet high quality requirements.
