Hire of JWA

water weight load test bags.

Hire of load cells

SERVICE OF PORTABLE DEVICES & GLOBAL SPAN GAS SUPPLY

Cost effective service & calibration of all portable devices existing on board including **UTI, Gas Detectors, Alcohol Meters, temperature and pressure Calibrators.**

Premium repair and spare parts replacement, fully compliant with the latest regulations and makers' requirements.

Handling your fleet's **Gas Detection Devices** is easier with Poseidon's solutions:

1 SPAN GAS SUPPLY

A complete range of single and multiple span gases for the calibration of all types of gas detectors and alcohol meters delivered to you anywhere in the world, under fixed price and accompanied by operation assistance and transportation handling.

2 TOTAL CARE PROGRAM

A complete cost-effective program for 3 or 5 year coverage of your company's needs in gas detection devices and relevant spare parts.

POSEIDON IS AUTHORIZED DISTRIBUTOR & SERVICE CENTER OF **Dräger**

HOSES FOR CO₂ SYSTEMS

Manufacture of CO₂ flexible hoses for CO₂ systems according to:

IMO regulation MSC.1 / Circ. 1318

Certified by: DNV

Hoses can be replaced either by our service engineers or by vessel's crew. The installation ensures a safe, leakage-free environment and compliancy with the relevant regulation for 10-year replacement.

ADVANTAGES:

- > **Fast production time.**
- > **Worldwide delivery of hoses at any port by arrangement.**

LIFERAFT INSPECTION & REPAIR

Approved service station in Piraeus acquires the latest equipment to perform all necessary testing (annual, 5 & 10 yearly) to your liferafts and ensure their good operation. With a wide range of brand-approved spare parts and a service team that follows regularly liferaft training courses we service a big variety of liferaft brands.

AC/OX GAS DISTRIBUTION SYSTEM INSPECTION

Annual and 5-yearly inspection of the Acetylene/Oxygen Welding Gas Distribution System of various makers, including testing of critical components, in compliance with the safety guidelines of OCIMF and RightShip, as well as classification requirements, to ensure the safety of your crew and vessel.

Our competent technicians are available in Piraeus, Rotterdam, Limassol and Barcelona and fly worldwide to meet your needs.

Approved by DNV

TRAININGS

Our **TRAINING ACADEMY** offers useful courses that help office employees for Purchasing, Safety & Quality and Technical Departments to broaden their knowledge on everyday aspects of their job.

The courses give a better understanding of marine equipment you are asked to handle on a daily basis, and hence upgrade your communication skills with crew and suppliers and expand your knowledge on critical services and equipment that exists on-board.

THEMATOLOGY OF COURSES:

- ❶ **FIRE FIGHTING EQUIPMENT (FFE)**
- ❷ **PERSONAL PROTECTION EQUIPMENT (PPE)**
- ❸ **LIFEBOATS**
- ❹ **LIFERAFTS**
- ❺ **GAS DETECTORS**
- ❻ **HOSES**

All courses are free of charge.

CONFINED SPACE ENTRY (CSE) TRAINING TRAILER

We bring to your premises Dräger's official Confined Space Entry Training Trailer, especially designed to provide practical training in custom made scenarios according to your applications. Gain experience on using personal equipment and train in situations that may occur in your workspace.

ONLINE TRAINING

Online training sessions under Total Care program for the calibration and proper usage of gas detection devices.

SUPPLY OF MARINE SAFETY EQUIPMENT

FIRE FIGHTING EQUIPMENT

Complete range of fire protection products, such as fire hoses, fire extinguishers, couplings, smoke detectors and fireman's suits.

PERSONAL SAFETY

As the official distributor of Dräger, the leader in personal safety equipment, we offer you breathing apparatuses, escape sets, masks, filters, chemical suits, gas detection devices and more.

SURVIVAL SUITS

Survival suits to maintain thermal properties against cold waters, with outstanding, value-for-money, SOLAS approved quality.

LIFEJACKETS & BUOYS

Quality is the top priority for Ocean Safety Lifejackets & Buoys. Product approvals to CE, SOLAS, ISO 9001, ISO 12402 and international & military standards ensure that your demands are satisfied.

LIFESAVING EQUIPMENT

At time of emergency you only trust reliable products. Therefore, we offer you a wide range of rescue and safety equipment including products from world leading manufacturers such as COMET pyrotechnics, ACR Artex rescue beacons, overboard recovery systems and fall arrest devices.

LIFERAFTS

Wide range of liferaft brands for commercial and leisure ships, renowned for their sturdiness of design and long product life.

RESCUE BOATS

Rescue boats designed for commercial and military applications and with broad adaptability. They meet the highest safety regulations in the industry and are SOLAS approved.

RELEASE HOOKS

Automatic release hooks for life boats, life rafts and rescue boats. The advantage of using the T-ISS PX01 is twofold:

- > It will increase safety, as the crew will only need to familiarize themselves with one hook, instead of two.
- > It is economical, instead of two hooks, only one is sufficient.

SAFETY LIGHTS

Daniamant is the reliable, leading manufacturer of survivor location lights, offering a wide range of lifejacket and lifeboat lights.

GAS DETECTORS & TUBES

A wide range of latest technology Dräger gas detection devices (single & multi gas, portable & fixed) addressed to all types of industries for various types of toxic or flammable gases. A huge variety of short term tubes for all types of gases, with the use of relevant hand or electronic pumps for measurements up to 30 meters.

SERVICE STATIONS

Our **Service Stations** are located in **key ports** around the globe such as **Piraeus, Rotterdam, Houston, Limassol, Dubai, Suez, Barcelona and Algeciras**. They are operated by experienced and highly skilled technical engineers, available on a 24/7 basis.

In our stations the service of your **PPE and FFE equipment**, as well as the refilling and hydrotesting of cylinders, are executed using the latest technological equipment.
