

TRAINING ACADEMY

Marine sector

Our TRAINING ACADEMY offers useful courses that help office employees for Purchasing, Safety & Quality and Technical Departments to broaden their knowledge on everyday aspects of their job.

The courses give a better understanding of marine equipment you are asked to handle on a daily basis, and hence upgrade your communication skills with crew and suppliers and expand your knowledge on critical services and equipment that exists on-board.

- > Gain a deeper understanding of the equipment you use every day.
- > Improve communication skills with crew members and suppliers.
- > Expand your knowledge of the services and equipment available on board and in your workplace.
- > Enhance safety for yourself and your colleagues.

All courses are free of charge and fully customizable to meet the specific needs of your company. Participants receive a Certificate of Attendance.
