Business Description / Activity

Poseidon Marine Supplies is a leader in Marine Safety industry with a strong safety culture and sense of responsibility. The company is committed to provide top quality safety services that meet international requirements and exceed customer's expectations and to conduct its operations in a manner that protects human health and property. Poseidon Marine Supplies has set very high standards to everyday job and has chosen to employ motivated, professional and well-trained personnel, who are always in time and have an attitude to face every new deal as a challenge. If you share the same principles, come join our team!

About the company

Poseidon Marine Supplies was established in 1976 and is currently a major ship supplier and FRS service provider with privately owned service stations in Greece, Netherlands, Limassol and Houston TX, and manpower of more than 100 people. Since the beginning of 2019 the company operates at the port of Rotterdam with a service station for FRS and supply of safety equipment.

We are currently seeking for an experienced FFE service engineer for our Dutch branch, to join one of the best teams of technicians, our team.
